Wednesday 23rd January 2019

Dear Parents and Carers,

As you are aware the work on the heating system is well underway. This is an installation of a whole new central heating system in the Junior end of the school. Contractors are working overnight in order to complete the works. The work will take a number of weeks on a phased basis restoring central heating to the Junior side of the building as each phase is completed.

As before the central heating in the Infant side of the building is fully operational. The classrooms on the Junior side of the building are currently being heated with temporary heaters provided by a specialist company. This is not as efficient as a whole central heating system, but is a suitable system in the interim.

As the colder weather is here, please make sure your child wears appropriate clothing, tights rather than socks for example, or an extra layer. If your child is more comfortable wearing a fleece or hoodie over their school jumper, please feel free to dress them accordingly. Also please make sure your child comes to school in a coat for playtimes and lunchtimes. This also applies to the infant children as they eat their lunch in the Junior Hall.

Teachers are continually assessing the working space for their class and if they feel there is a need to relocate their class this can be arranged. If you have a particular concern about your child, please see their class teacher who can advise you directly about their classroom.

As always in the colder months, if the weather is particularly cold we do not allow children to play outside at break times.

We will keep you updated with any more news as and when necessary.

We have full confidence in the contractors who are working with us and appreciate the urgency of the work.

Thank you for your ongoing support for your child and school.

Yours faithfully,

Jill Stratford

Headteacher
